Week 5 Homework

1. Reading:

Ladefoged & Johnson, Chapter 10 (pp.253-260 only)

[Goldstein, L., Byrd, D., and Saltzman, E. \(2006\)](#). The role of vocal tract gestural action units in understanding the evolution of phonology. In M. Arbib (Ed.) *From Action to Language: The Mirror Neuron System*. Cambridge: Cambridge University Press. pp. 215-239 only.

2. [Exercise based on L&J, Chap 10](#). This is just to get you to consider some examples of variable syllabification. Nothing to turn in.

3. [Pre-boundary Lengthening](#)

4. Based on the reading and the lecture on syllable structure, formulate three discussion questions about the relation of syllable structure and gestural organization.
